

Keep up the learning through summer!

Dear Parent

Maths skills can decline more during the summer holidays than any other subject, Harvard Graduate School of Education [research](#) suggests. With students losing up to three months of learning during the summer break, that's almost a whole year of learning lost during their primary years.

To prevent the summer slide we are launching a Maths Summer Challenge using a safe online maths game called j2blast from Just2easy Ltd.

With your parental support we can:

- Reduce the summer slide in maths
- Get students playing games and learning maths in a safe online environment
- Develop every student's love of maths and ICT!
- Every student who plays at least 10 games on **j2blast Go Live!** will be entered into a prize draw for several £20 Argos vouchers and our school could win money for resources too.

How to play:

Your child has been given a username and password or QR code to play j2blast:

visit: j2e.com

School Name: _____

Username: _____

Password: _____

Click on J2blast icon, then J2blast, then practice your maths and get in the Summer Maths Challenge by playing Go Live!
