

## Finger Paint

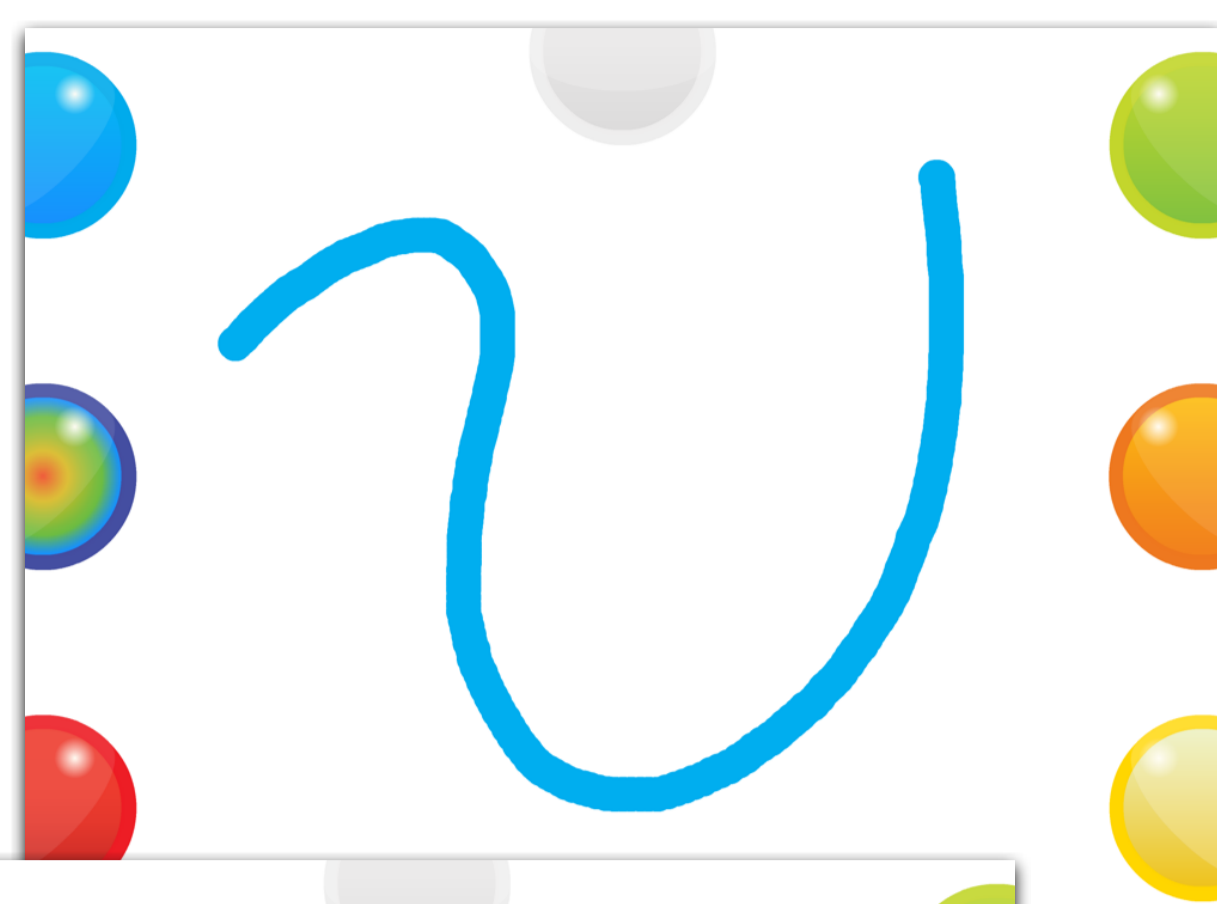

An interesting app for iPad or android tablets. Choose a colour and paint lines by dragging your finger across the screen. The difference here is that music or a sound plays while the finger is dragging. This free app can be used in other ways.

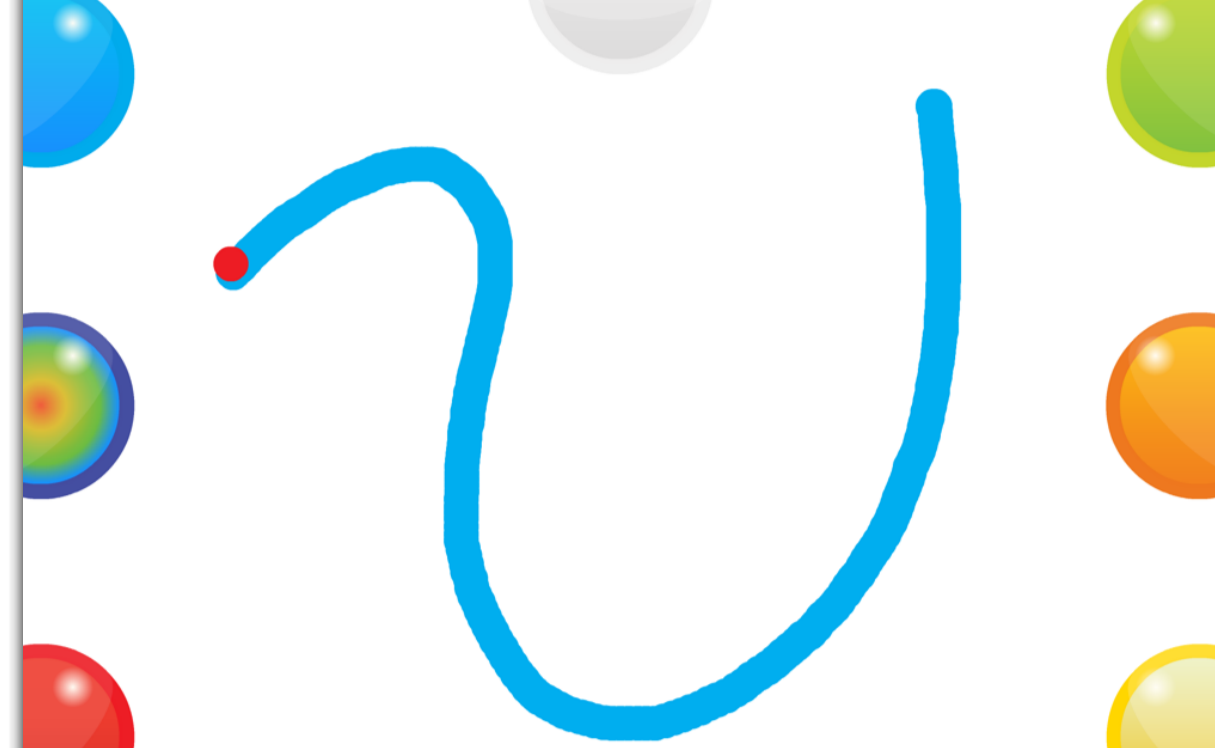

The working screen is simple. Touch a colour (or rainbow effect or eraser at the top).

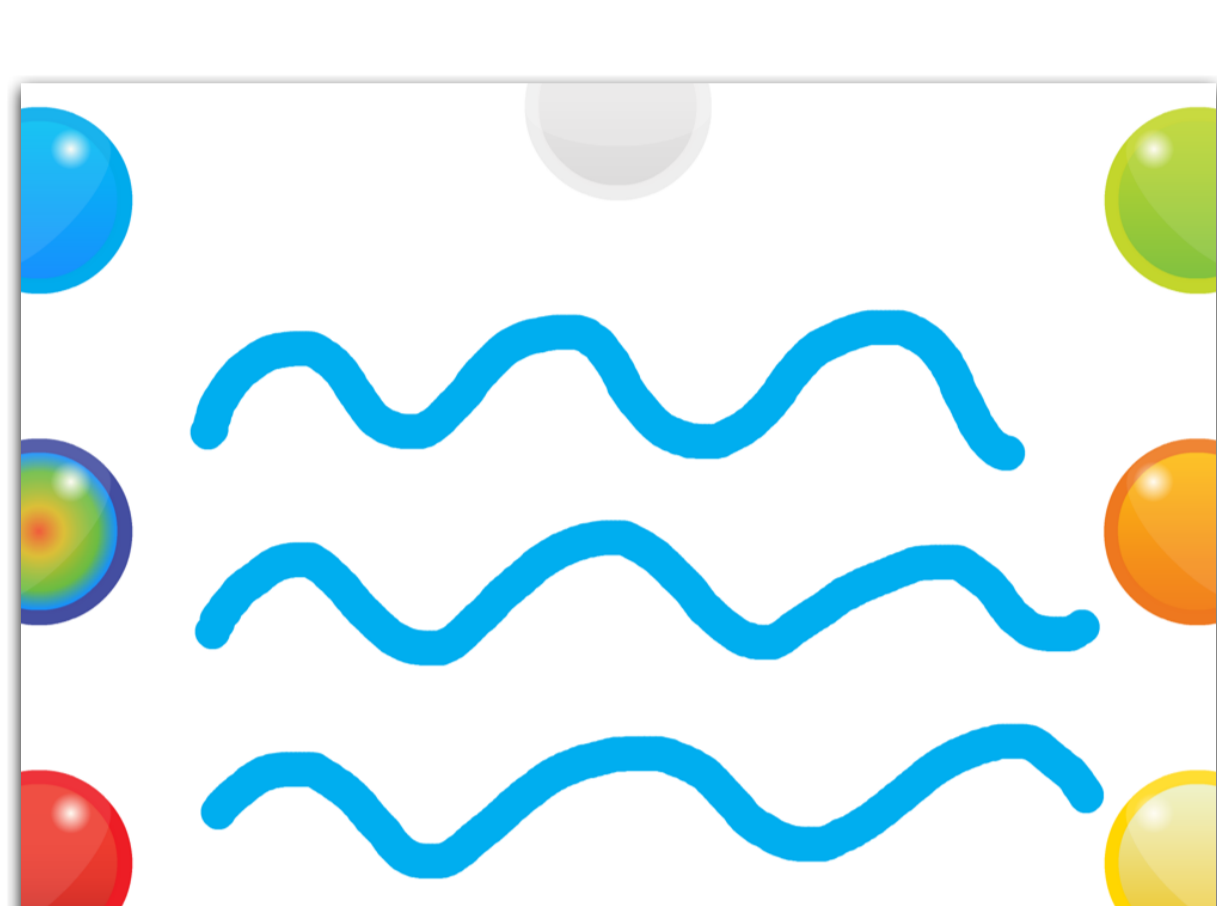

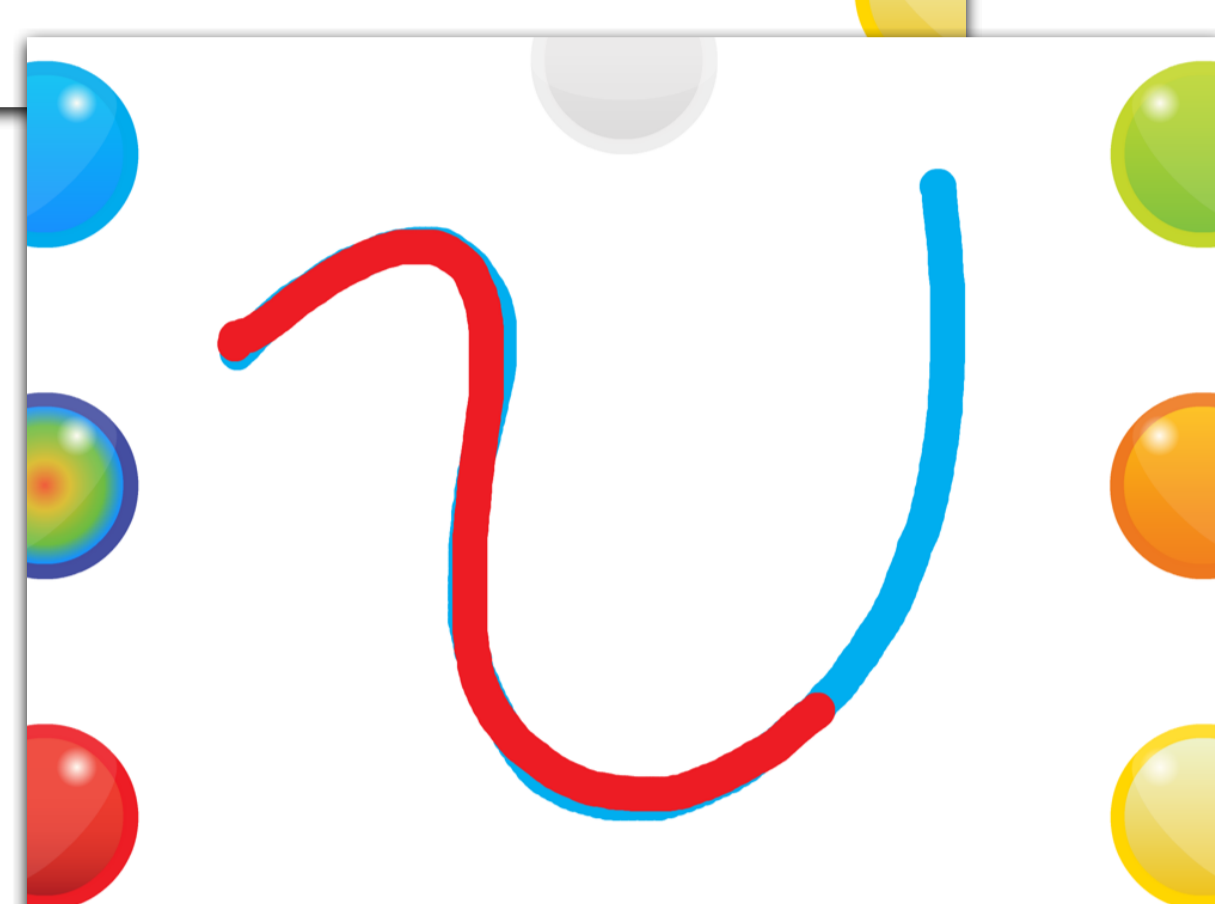

An adult or a child draws a line

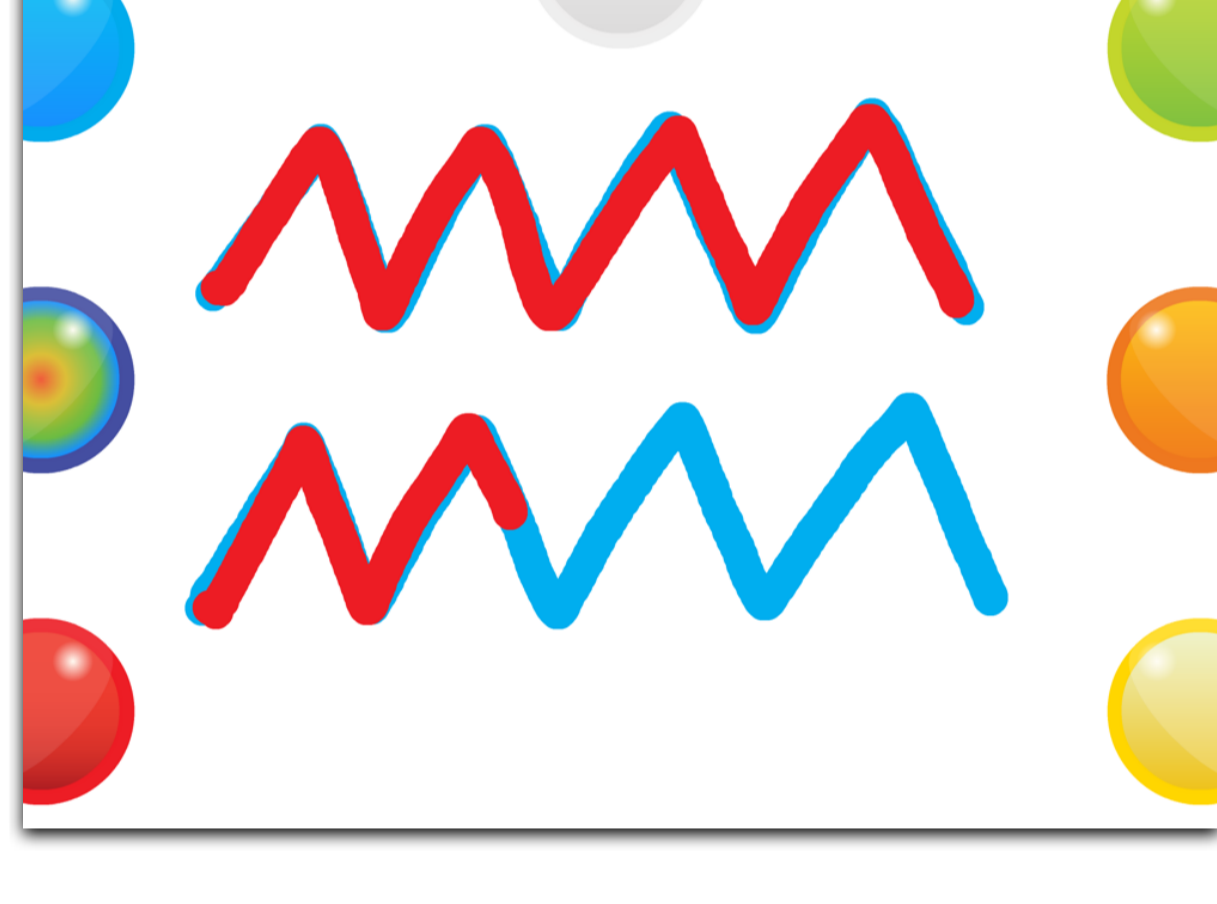

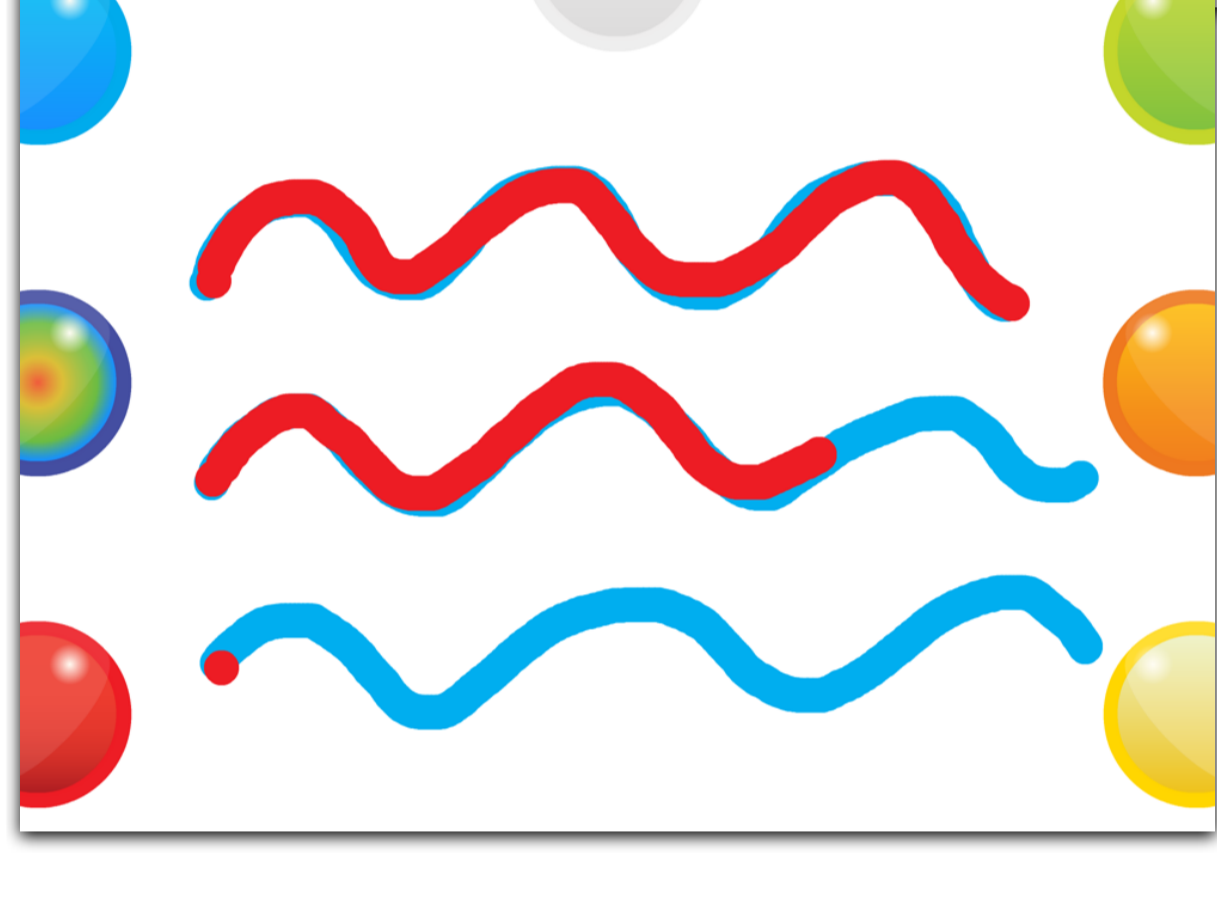

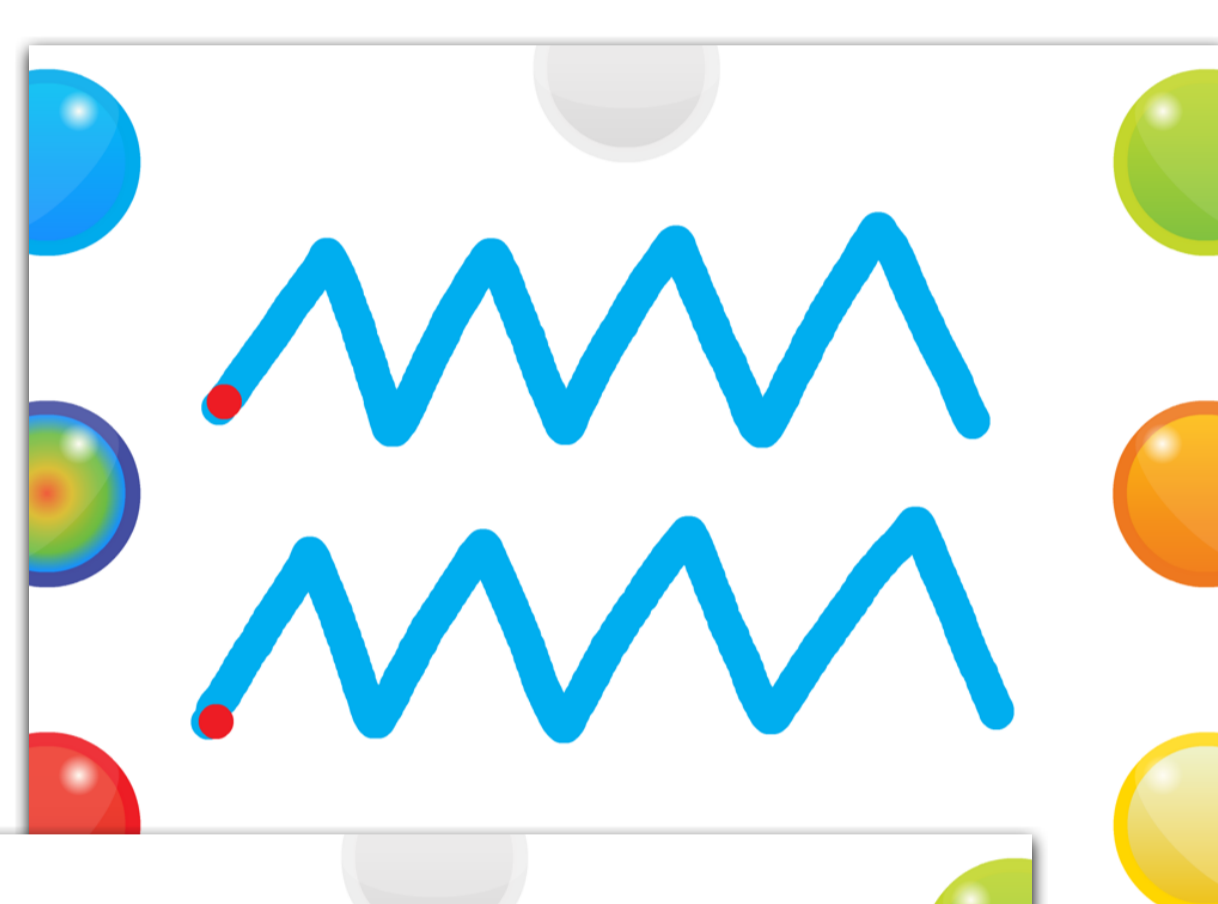

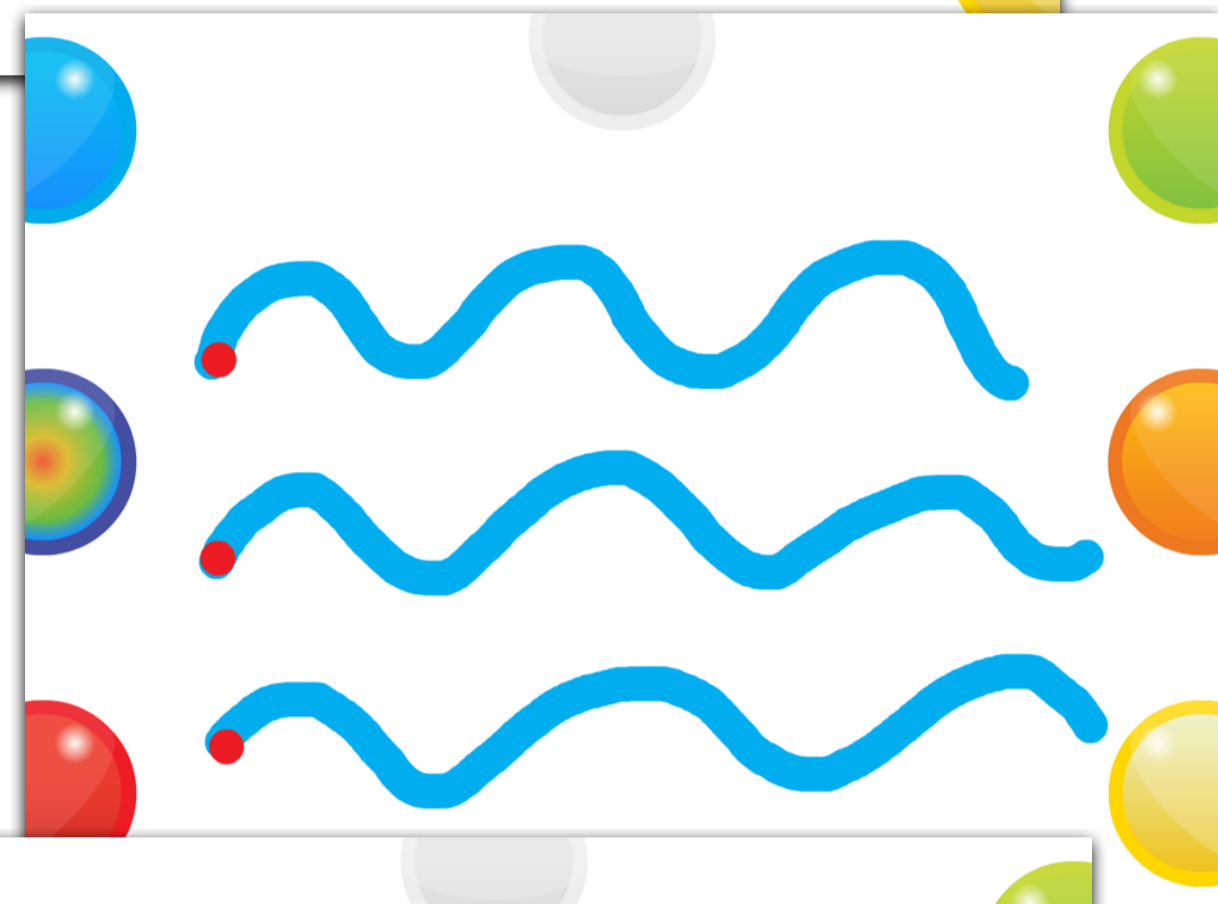

Change colour to red and put a dot for the start position

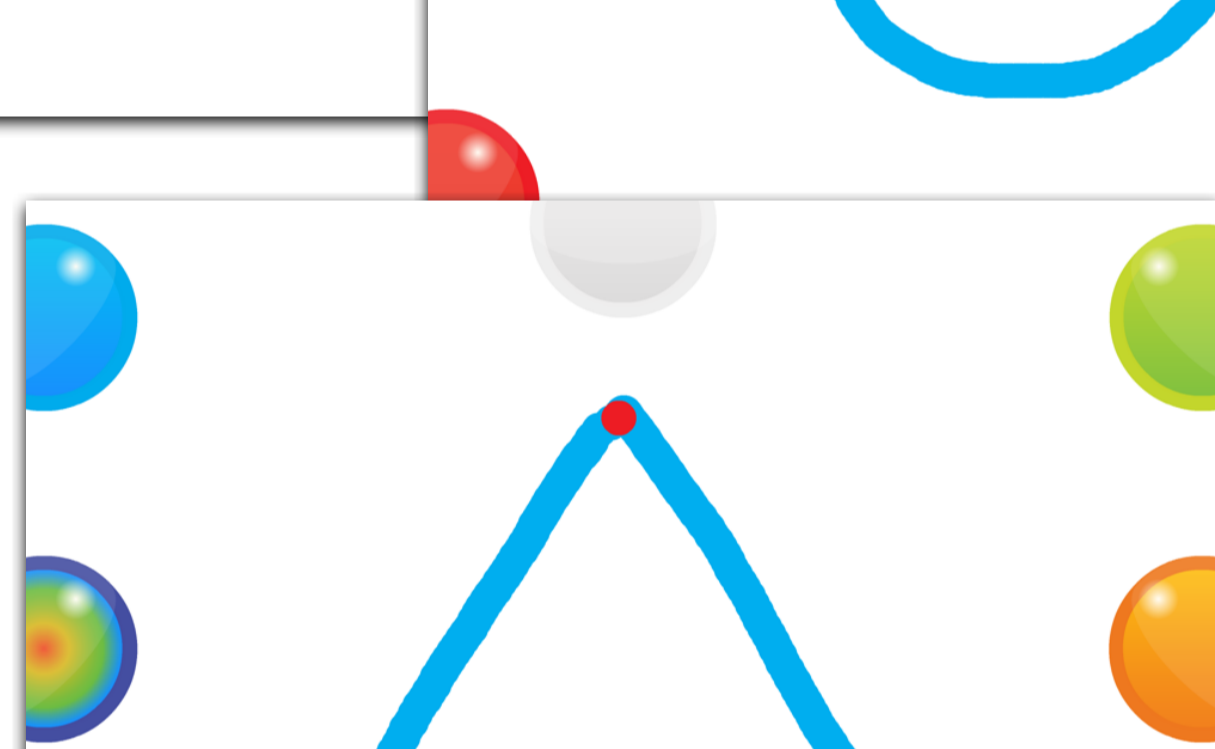

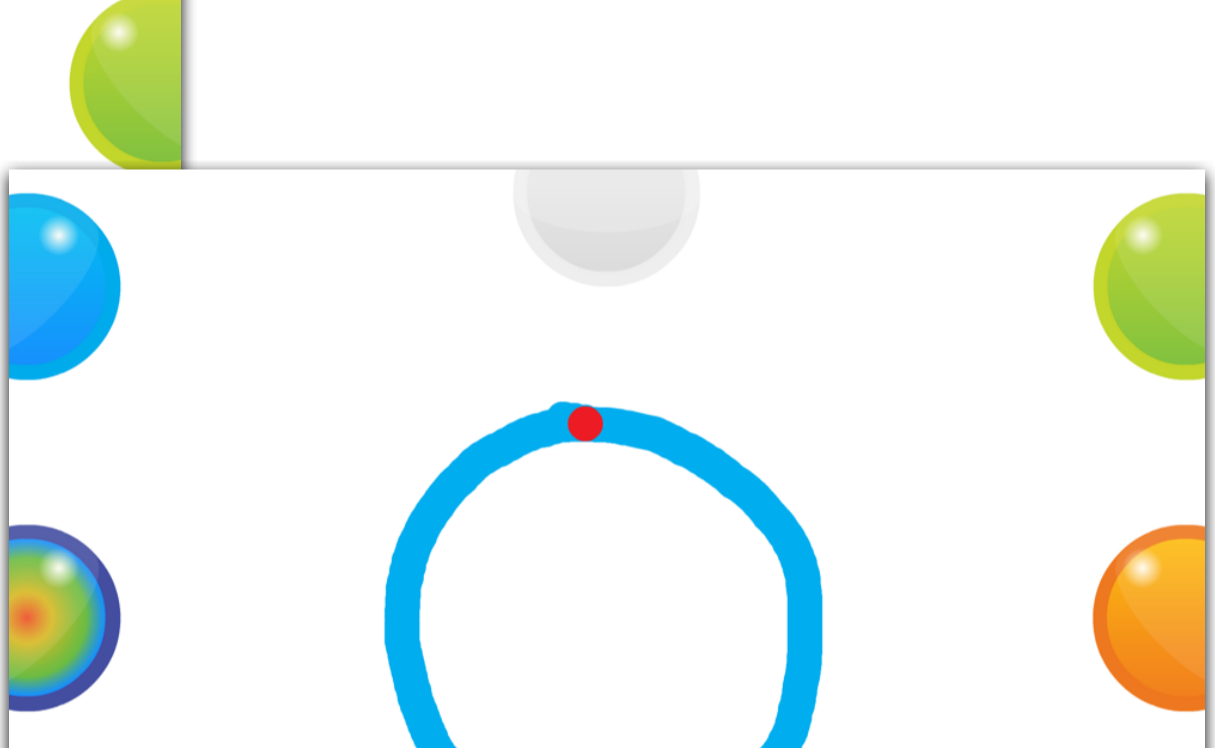

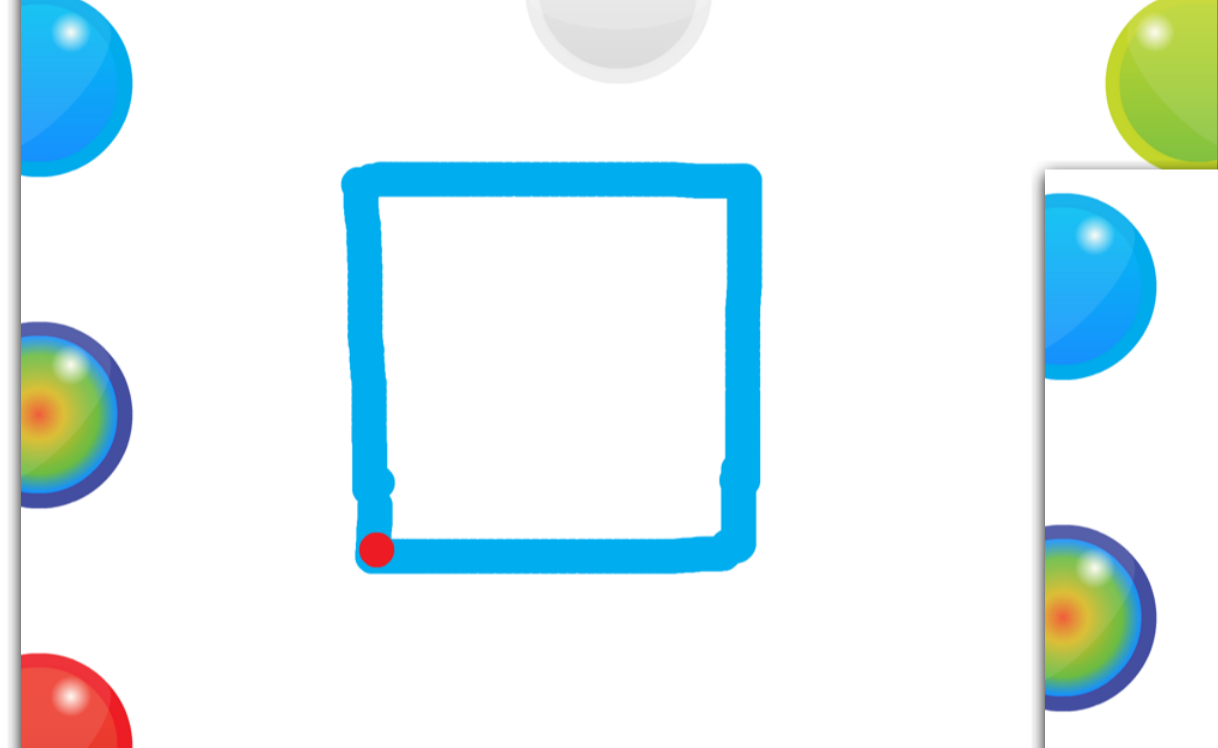

A child traces over the line

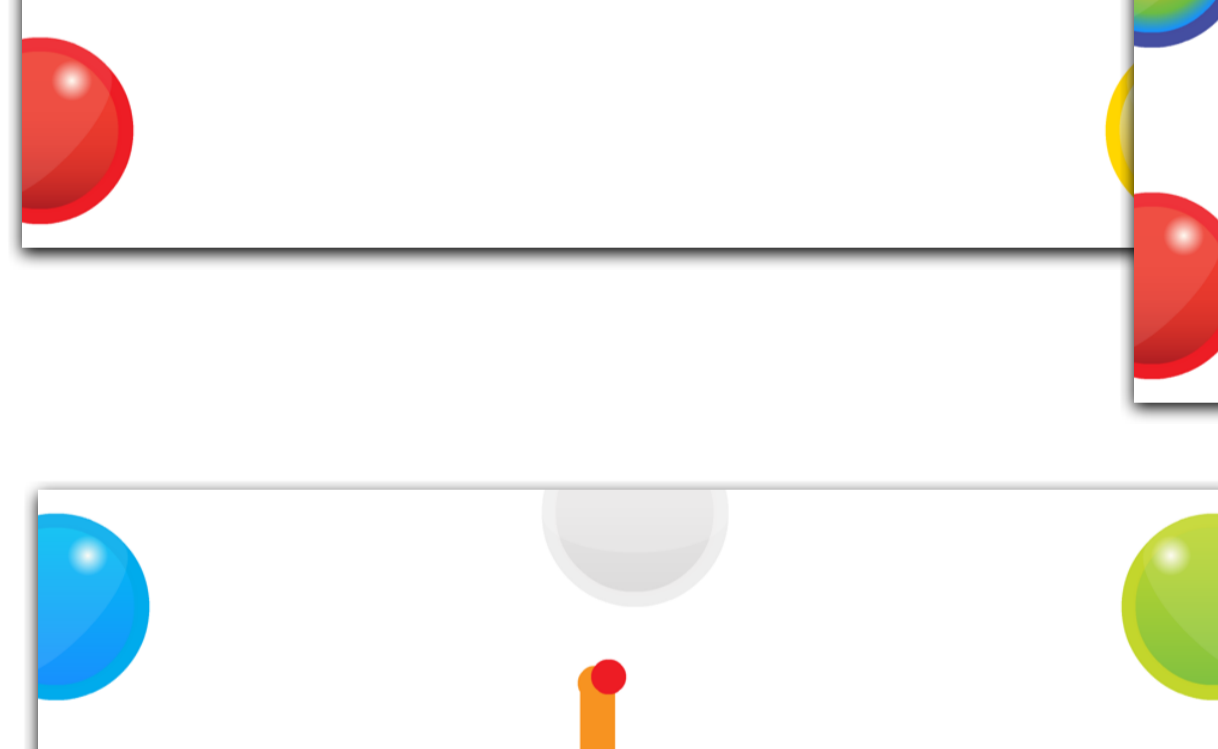

Some other lines:

Shapes:

Letter formation:

Handwriting words:
