

Respect and Resilience. Developing community cohesion

Self-assessment Tool – October 2015.

This self-assessment tool has been adjusted to align it with the new *Counter Terrorism and Security Act 2015*, Estyn's Common Inspection Framework and the duties and responsibilities that schools are required to meet. This includes actions to address guest speakers, events in schools, risk assessment and safeguarding all learners within schools and other settings. This document focuses on schools and their learners.

The purpose of this tool, which should be used with the updated '*Respect and Resilience - developing community cohesion guidance*' (attached), is to enable schools in Wales to assess their levels of compliance with both the *Counter-Terrorism and Security Act 2015* and best practice in the maintenance of a safe learning community. Schools can use this as a checklist of their readiness and their overall compliance. It allows for opportunities to prepare and implement plans in response to gaps in performance and in any neglected areas of responsibilities. It is important that schools and their governing bodies prioritise their safeguarding plans to comply with the essential parts of the Act to maintain a safe learning community.

How does your school match up?

When responding to each of the questions, you should indicate your school's level of compliance with best practice in the creation of a safe learning community, according the following RAG criteria:

Red – Significant divergence from the *Counter Terrorism and Security Act 2015* and best practice: a fundamental review of current approach is required.

Amber – Partial compliance with the *Counter Terrorism and Security Act 2015* and best practice, some additional actions and improvements to procedures are required to reach full compliance.

Green – Full compliance with the *Counter Terrorism and Security Act 2015* and best practice.
