

Chawson First School Newsletter

17 October 2014

www.j2e.com/chawson

It has come to our attention that some of our children are developing a bite-like rash. The rash is caused by a virus; Molloscum Contagiosum (MC) and looks similar to insect/flea bites. Children are still able to attend school. However we'd advise parents to visit their GP if they suspect their children of having MC, for a diagnosis.

Nut Allergies in School

We have a number of children who are seriously allergic to nuts and can have a reaction to even a small trace of nuts. We would very much appreciate it if parents would ensure that no children come to school with any type of nuts in their lunch boxes. Our school meals service, Shire, do not use nuts in any of the foods they provide. Thank You.

The school was involved in 'No Pens Day' on Wednesday. It was a great success and the children really enjoyed being creative. We will be telling you more about the day in our monthly newsletter.

The following Year 3 and 4 children have been recognised for their consideration to the lunchtime staff: Laney L, Adam Mc, Thomas B and Ella W.

Thank you to the parents and grandparents that have made our 'Learn with your child' mornings such a success. It has been lovely to share with you a little more about the learning that takes place.

Year 3 would like to collect different types of little card board boxes that they can take apart and look at nets.
