

Outdoor learning—Camouflage

Dosbarth Bedwen—9 June 2023

This week, we have been thinking about camouflage.

We looked at a range of animals from the past and present. We challenged ourselves to make them blend into their backgrounds. Some animals could camouflage more easily than others.

We tried to camouflage ourselves using willow crowns and selecting a range of wild flowers to decorate it. We discussed how important it is to carefully remove the flower stem so that the plants can continue to produce more flowers. We used daisies, buttercups, feathers and grasses as decoration. We enjoyed showing off our designs in a fashion show!
