

Continuity of Education - Distance Learning Plan

October 2020

In the event of a class being at home due to self-isolation rules (class closure), the following plan will be put in place.

Contact between pupils and class teacher

- The teacher will contact their class each morning through J2message and will monitor this platform daily between 9:00 and 12:00.
- Pupils are able to message their teacher through this media. This is our preferred method of communication.

Accessing work

- Teachers will set directed work for each day of the week with clear instructions of where the work can be accessed. There will be a blend of online and non-digital activities.
- Pupils should complete work for the day it is set.

Learning Platforms

We have a number of online learning platforms that we use in school. During any period of home learning we will be making use of these to support the children in their learning. **Please check you are able to access these on a device at home in readiness.**

Hwb – www.hwb.gov.wales

All pupils have an individual Hwb login and password.

J2launch – www.j2e.com

This can be accessed through Hwb (on laptops/PCs) or through the j2launch app (on tablets). This is also the platform to access j2message.

MyMaths – www.mymaths.co.uk

All pupils Y2 upwards have an individual login.

Lexia – www.lexiacore5.com

All pupils Y1 upwards have an individual login.

This can be accessed through the web address above (on laptops/PCs) or through the Lexia Core5UK app (on tablets). Please check it is the UK version you download.

Google Classroom – accessed through Hwb (Google for Education)

Year 5 & 6 only. Access to classes has been set up in school
