

Outdoor learning—WINTER WATCH

Dosbarth Bedwen—13 Jan 2023

This week we have been looking at nature in Winter.

We found buds on the trees and the first shoots coming up for the Spring bulbs.

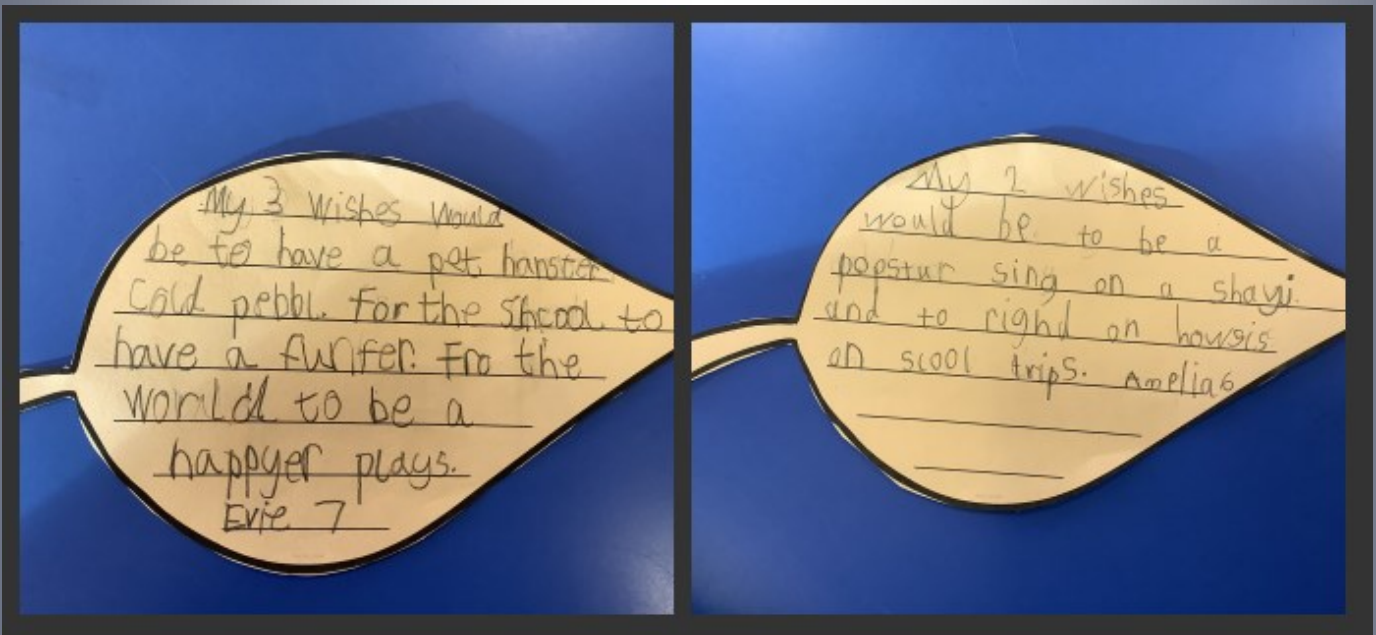

Winter is a good time to tidy up in the garden.

We thought about the new year and what we would wish could happen for ourselves, our school and the world.

We wrote our wishes on leaves and hung them on our wishing tree.

This month is the 'Big Garden Birdwatch' for the RSPB.

We decided to put up a bird feeder and thought carefully about where to place the feeder so the birds cannot be disturbed by children or predators like cats.

We thought about the type of food birds like to eat and why it is important to feed the birds in winter.
