

Outdoor learning—AUTUMN

Dosbarth Bedwen—23 September 2022

This week we have been thinking about Autumn

We collected Autumn leaves and looked at their colours.

We found brown, yellow, orange, red and purple leaves.

We used crayons in Autumn colours to make leaf rubbings.

We mixed paints to make the shades of Autumn.
We then wanted to create the smell of Autumn.

We chose a mixture of herbs for their smell: lavender, sage, mint, lemon balm and some petals.

We picked off the leaves and petals and mashed them in a jug.
We measured 50ml of water to mix with the plants.

Then we sieved the mixture.

Finally we smelled the mixture. Some of the words we used to describe the smell of the perfume were delicious, beautiful, amazing and disgusting!

When we finished, we used our perfume to water the plants, then recycled the plants in the compost before washing up everything we had used.
