

# Outdoor learning—Mud & Clay

Dosbarth Bedwen—28 October 2022

This week we have been investigating mud.

We thought about where the best mud was in the school.

We thought about what we needed to add to make it stay in the shape of a ball. We added water. Too much and it was runny, too little water and it was powdery.

We made  
mud balls  
and threw  
them at the  
target.

We added up  
our scores.

We had a mud and spoon race. We had to weave in and out of the cones. It was quite easy, so we decided to make it harder by climbing through a hoop without dropping the mud from the spoon.

We made clay sculptures using natural objects.  
We used a leaf as a plate.

We used mud to paint a picture. We experimented with using natural items to make prints.

Today was very muddy, but lots of fun!
