

# Outdoor learning—Wind and Rain

Dosbarth Bedwen—30 Sep 2022

## Rain Art

We used felt tip pens and drew on kitchen towel. Then we hung them up in the rain and watched the colours move. The black separated into blue, red and yellow.

We were fascinated.

## Moving in the Wind

We used scarves to help us move in the wind. We threw them and caught them, looped and wiggled, and tied them together.

## Wind Bubbles

We thought about how the wind can blow bubbles. We designed and made bubble wands with pipe cleaners.

We blew through our bubble wands and ran with the wand to make wind bubbles.

## Using the Wind - Kite Flying

We learned how to fly a kite. We had to wait for a gust of wind before launching the kite. It was important to keep the string tight. It made us feel powerful and excited.
