

Outdoor learning—APPLES

Dosbarth Bedwen—9 September 2022

We checked the apples were ripe by giving them a little twist

Once we all had an apple, we carefully peeled it using an apple peeler. We know we have to pinch the top and bottom of the apple and peel away from our fingers.

It was quite tricky

We worked together to use the apple cutter to remove the core

We made a crumble mix by measuring spoons of butter, sugar, flour and oats and then rubbed it all together with our fingers

Miss Dixon stewed the apples and roasted the crumble.

Roedd hi'n
flasus iawn.
