

Policy Name: Relationships and Sexuality Education Policy

To be reviewed :Autumn 2026

Edition/Version Number: v1

#### **Melin Primary School**

## Relationships and Sexuality Education (RSE) Policy

## **Introduction**

The purpose of this policy is to provide all stakeholders (learners, staff, parents/carers, governors, and external organisations) at Melin Primary school information about our Relationships and Sexuality Education (RSE) provision.

High quality RSE is fundamental in creating a safe school environment where learners grow and develop positive, healthy relationships for life.

The policy is in accordance with the Welsh Assembly guidance mandatory document Relationships and Sexuality Education Code for Wales. This Code contains mandatory requirements, the legal basis for which is set out in the legislation summary of this Curriculum for Wales framework guidance. It sets out the themes and matters that must be encompassed in RSE. A curriculum and teaching and learning must encompass the mandatory element of RSE outlined within the following RSE Code. This mandatory RSE Code supports schools to design their RSE. The content is set within the context of broad and interlinked learning strands, namely:

- relationships and identity
- sexual health and well-being
- empowerment, safety and respect.

Across the learning strands, curriculum content in RSE must be inclusive and reflect diversity. It must include learning that develops learners' awareness and understanding of different identities, views and values and a diversity of relationships, gender and sexuality, including LGBTQ+ lives. Learning about rights and equity runs through all the strands, as well as embedding learning and experience through a rights-based approach to the learning.

At Melin Primary School we recognise that the world around us is evolving rapidly and significantly. We are inclusive of diversity. We fully comply with our duties under the Equality Act 2010 and the RSE Code. We support parents and carers in understanding why high quality, inclusive RSE at Melin Primary School is important to the development and learning of every young person.

Melin Primary School actively participates in the Welsh Network of Healthy Schools Scheme (WNHSS) which provides a framework for the development of a whole school approach to RSE through effectively linking policy, staff, development of a spiral curriculum, school ethos, learner voice and the wider community.

#### **Beliefs and Values**

We believe that RSE is lifelong learning about physical, moral and emotional development. It helps learners to move with confidence from childhood through adolescence into adulthood. It is about the teaching of sex, sexuality and sexual health.

We teach RSE in a way that reflects the values of our school community and the importance of a stable, secure and loving environment for family life in loving and caring relationships. We will always be sensitive and respect differences as can be

expected within a diverse society, and ensure that there is no stigmatisation of children based on their home circumstances. RSE is taught through our curriculum in an age appropriate manner that is respectful of the cognitive abilities of the child.

While we use relationships and sexuality education to inform children about sexual issues, we do this with regard to matters of morality and individual responsibility, and in a way that allows children to ask and explore moral questions. We do not use sex education as a means of promoting any form of sexual orientation.

#### Legislation

Relationships and Sexuality Education (RSE) is a statutory requirement in the new Curriculum for Wales framework and is mandatory (must) for all learners. The Relationships and Sexuality Education (RSE): statutory guidance (2022) sets out statutory guidance in relation to RSE and is published under section 71 of the Curriculum and Assessment (Wales) Act 2021 (the Act); it is designed to assist those responsible under the Act to design RSE as part of the curriculum. The Curriculum for Wales – Relationships and Sexuality Education code contains mandatory requirements for RSE. It sets out the themes and matters that must be encompassed for learner from 3 to 16 years old.

Our school policy and curriculum have been developed in line with Welsh Government statutory guidance and legislative summary and aligns with the Equality Act 2010.

#### **UNCRC**

At Melin Primary School we discuss RSE in the context of children's rights as protected by the United Nations Convention on The Rights of the Child.

The rights below underpin and shape our RSE curriculum and school policy:

- non-discrimination (Article 2)
- be heard and involved in decision-making (Article 12)
- freedom of expression (Article 13)
- follow your own religion (Article 14)
- have privacy (Article 16)
- access information to make informed decisions (Article 17)
- not be harmed and should be looked after and kept safe (Article 19)
- experience the highest attainable health, access to health facilities, and preventative health care (Article 24)
- education that prepares children to understand others (Article 29)
- protection from sexual abuse and exploitation (Article 34)
- get special help if they have been abused (Article 39)

Everyone who works with children at Melin Primary School should always do what is best for each learner, as part of our Whole School Approach to RSE (Article 3).

#### **Teaching and Learning**

Fostering positive attitudes towards gender diversity, equality and respectful relationships. This policy supports our approach to preventing violence against women, domestic abuse, and sexual violence (VAWDASV). At Melin Primary School we believe all learners have the right to receive high-quality, holistic, and inclusive education about relationships and sexuality.

The aim of RSE is to help learners develop the skills and knowledge appropriate to their age, understanding and development. It should be relevant and sensitive to their needs. It should help them learn to respect themselves and others and move with confidence from childhood through adolescence into adulthood. **RSE Curriculum** RSE is taught by class teachers through discreet lessons and cross-cutting themes. Teaching strategies and techniques will vary according to the needs of learners. The school seeks to give quality education on RSE to all learners.

The school seeks to provide accurate, unbiased information on RSE to learners as part of our pluralistic approach. This means that where questions of values are concerned, we provide a range of views on a given subject commonly held within society. As they develop, learners are encouraged to take increasing responsibility for their own learning.

RSE will be taught through the Health and Well-being AoLE and cross-cutting themes and will incorporate all five statements of what matters.

RSE in the curriculum focuses on three broad strands:

**Relationships and identity**: helping learners develop the skills they need to develop healthy, safe, and fulfilling relationships with others and helping them to make sense of their thoughts and feelings.

**Sexual health and well-being**: helping learners to draw on factual sources regarding their sexual and reproductive health and well-being, allowing them to make informed decisions throughout their lives.

**Empowerment, safety and respect**: helping to protect learners from all forms of discrimination, violence, abuse and neglect and enabling them to recognise unsafe or harmful relationships and situations, supporting them to recognise when, how and where to seek support and advice.

## Melin Primary School uses the following resources:

- SENSE resources
- Growing Up resource
- NSPCC
- SEAL

## **Involving Outside Agencies:**

When outside agencies provide sessional learning opportunities for learners, the school will ensure that:

- The school and the external provider have agreed the aims, content and approach to be adopted.
- The school has checked that the work of the agency is known to them and is considered appropriate in respect of safeguarding/child protection procedures and equality.
- The school has made the provider aware of any relevant school policies.
- The school has planned for the provider to be actively and always supported by a teacher throughout the visit.

## Understanding the nature of progression in RSE

4

At Melin Primary School we follow the Phase 1, 2 and 3 approach, as outlined by the Welsh Government's Code in terms of what content is covered by each age range from a certain age.

The principles of progression across the Health and Well-being Area offer guidance to progression in RSE. Our curriculum revisits content, themes and topics as outlined in the preceding phases set out in the Code, reinforcing and building on learners' developing understanding and changing needs.

### Positive, protective, and preventative RSE

Building on the Code, the approach to RSE in our school is positive, protective and preventative. We support learners to:

- have access to objective, supportive and inclusive information about growing up, changing, relationships, reproductive and sexual health.
- understand and cope with change, conflicts and pressure.
- recognise potentially harmful behaviours in relationships and know how to seek support.
- have the knowledge to recognise all forms of discrimination, violence, abuse and neglect, including violence against women, domestic abuse and sexual violence.
- seek help and advice where appropriate.

At Melin Primary School we endeavour to create safe and supportive learning environments. This helps to create trust and allow learners a safe space to consider learning, ask questions and express their thoughts and feelings.

We aim to encourage respectful conversation. This can be achieved by developing a working agreement of ground rules with learners. This helps to maintain professional boundaries and keep learners and practitioners safe. For example, creative approaches can help learners share their questions, views and experiences anonymously, allowing more open, honest discussion.

Distancing techniques will also be used to help learners to discuss sensitive issues and develop their decision-making skills in a 'safe' environment. The school includes a question box within all RSE lessons for pupils to anonymously ask a question. Any information that the teacher feels would support the class will be followed up in a later activity. Sometimes an individual learner may ask an explicit or inappropriate question. If this situation arises, the learner will be reminded of the class agreement.

As part of the RSE programme in Melin Primary School, all teachers will use the correct biological terminology.

#### **Harmful Sexual Behaviour**

We recognise that peer-on-peer sexual harassment can be prevalent in the lives of young people. At Melin Primary School, we have adopted a whole-school preventative and proactive approach to dealing with it.

This includes providing learners with assurance that school staff will take every incidence of peer-on-peer sexual harassment seriously and work in partnership with parents/carers and external agencies.

We will provide sufficient, cumulative, and beneficial learning opportunities for learners across the whole age range about harmful sexual behaviours. This includes providing a safe, enabling, and supportive environment for open and honest and appropriate discussions.

We will ensure all school staff receive regular and purposeful professional learning opportunities on, for example, relationships, sexuality, diversity, gender transitioning and harmful sexual behaviours.

#### Inclusion

Every child is entitled to receive RSE regardless of ethnicity, gender, religion, age, culture, disability, sexuality, language, specials needs, or whether a looked after child. It is our intention all children have the opportunity to experience a programme of RSE at a level which is appropriate for their age and physical development with differentiated provision if required.

## **Planning and Organisation**

There are clear opportunities to teach RSE within the curriculum. While we carry out the main sex education teaching in Year 6 as part of our curriculum, some sex education is also delivered through other subject areas such as Science, PE and RE. In Science, children learn about the main stages of the human life cycle.

They also learn about the life processes common to humans and other animals. In RE and PSE they continue to develop an understanding of relationships within a family, between friends and the community and that there are different patterns of friendship. The National Healthy Schools Scheme looks positively at any local initiatives that support the school in providing the best sex education teaching programme that we can devise, including the school nurse.

#### **Period Dignity**

Our school fully supports the Welsh Government Period Dignity Strategy Action Plan, which aims to end the stigma and shame associated with periods.

We will support the plan by ensuring the following:

- Provision of free resources, including environmentally friendly resources that learners can access from the toilets.
- A robust RSE curriculum that covers the menstrual cycle and periods for all genders.
- A safe and suitable environment for applying/changing products.
- Provision of sanitary bins, in learner toilets to support the safe and environmental disposal of products.
- Clear communication to learners/parents/carers informing them of the available free resources on site, and how they can access them.

#### **Parental Involvement**

The school is well aware that the primary role in children's sex education lies with parents and carers. We wish to build a positive and supporting relationship with the

parents of children at our school through mutual understanding, trust and cooperation. In promoting this objective we:

- inform parents about the school's sex and relationships policy and practice;
- answer any questions that parents may have about the sex education of their child:
- take seriously any issue that parents raise with teachers or governors about this policy of the arrangements for sex education in the school;
- involve parents in reviewing the school policy and making modifications to it as necessary through questionnaires at key times;
- inform parents about the best practice known with regard to sex education so
  that the teaching in school supports the key messages that parents and carers
  give to children at home. We believe that through mutual exchange of
  knowledge and information, children will benefit from being given consistent
  messages.

RSE is now compulsory for all pupils and parents do not have the right to withdraw their child from all or part of the sex education programme we teach in our school. We will always ensure that we teach RSE in a sensitive manner following the cognitive abilities of the child as well as their emotional maturity.

## **Pupil Involvement**

The views of the learners related to RSE will be sought as part of the Nine Term Self Evaluation cycle. It will also be considered to be part of the annual questionnaires which the school gives to pupils regarding 'teaching us to be safe', through evaluations in PSE sessions and through School Council meetings.

#### Safeguarding and Child Protection

Sex education lessons are conducted in a sensitive manner and in confidence. Ground rules for discussion excluding personal questioning of staff or pupils are established before discussions begin. However, if a child makes a reference to being involved, or likely to be involved in sexual activity, then the teacher will take the matter seriously and deal with it as a matter of child protection.

Teachers will respond in a similar way if a child indicates that they may have been a victim of abuse. In these circumstances the teacher will deal with it as a matter of urgency.

If the teacher has concerns, they will draw their concerns to the attention of the Headteacher as the Designated Child Protection Officer or in the absence of the Headteacher, the Deputy Designated Child Protection Officer in line with child protection procedures.

The Headteacher will then deal with the matter in consultation with health care professionals and relevant external agencies. (See also Child Protection Policy).

#### Signposting to services

Learners can access a range of information and advice through:

- The school's established interventions for social and emotional support.
- The School Based Counselling Service.
- The Health and Wellbeing Consultation sessions with the Local Authority
- Swansea Bay University Health Board

## The Role of the Headteacher

It is the responsibility of the Headteacher to ensure that both staff and parents are informed about our sex education policy, and that the policy is implemented effectively. It is also the Headteacher's responsibility to ensure that members of staff are given sufficient training, so that they can teach effectively and handle any difficult issues with sensitivity.

The Headteacher liaises with external agencies regarding the school sex education programme and ensures that all adults who work with children on these issues are aware of the school policy and work within this framework.

## Monitoring, Evaluating and Review

This policy and standards of teaching and learning in SRE is monitored, evaluated and reviewed in line with the school's Nine Term Monitoring Plan (which includes Governing Body involvement) unless there are changes in Government advice which require it to be revised sooner.

D. Harris October 2023

# Appendix A – Mandatory Content from the Code

Relationship and Identity Mandatory Content				
Practitioners should consider learners' developmental appropriateness for				
	ith learning that supports:	I DI		
Phase 1 from age 3	Phase 2 from age 7	Phase 3 from age 11		
Ability to act with kindness, empathy and compassion in interactions with others immediate to them including family, friendship and peer relationships.	Ability to form and maintain relationships which are equitable, respectful and kind with a range of others.	Understanding the positive and negative characteristics and healthy or unhealthy aspects of a range of relationships including family, friendship, romantic and sexual.  Ability to develop and understand the importance of equity, mutual respect, and		
		affection in relationships with others.		
An awareness of how to communicate wants and needs in relationships, and begin to respect those of others.  Awareness of how needs relate to rights.	How understanding and use of effective communication, decision-making, managing conflict and refusal skills are part of ensuring your own and others rights and part of friendships and relationships.	Understanding and use of effective communication, decision making, managing and resolving conflict, and refusal skills in a range of different contexts and types of relationships, offline and online, including intimate relationships.		
		Understanding how to speak out about harmful behaviours directed at them or others.		
Awareness of the diversity of families and relationships, including friendship and peer relationships, and why these are important.	Recognition of the characteristics of different families, friendship and peer relationships and the diversity of these.  Understanding positive behaviours in relationships and what can happen when relationships breakdown.  An awareness of how	Understanding how the diversity of relationships including marriage, and all types of civil partnership, has changed over time, and how relationships are positively and negatively impacted by social and cultural norms and laws in different ways around the world.		
	families, relationships and parenting are shaped by			

	social and cultural norms and laws that have changed over time.	
Developing a sense of themselves, in the context of families, friends and communities.  Recognising how people value different things and have different families, friends and communities.	Recognising how people's relationships with others shape who they are and their happiness.  An awareness of how identity can be expressed in different ways.	Understanding how rights need to be balanced in a diverse society; the characteristics, benefits and challenges of living in a diverse society; and how and why attitudes have changed and are changing including towards gender and sexuality diversity.
Experiencing inclusive behaviours, language and role modelling that show respect for others, whatever their gender.  Recognising learners' rights to be treated fairly, kindly and with respect.	Valuing and recognising the contributions of everyone; and the importance of sex and gender equality.  Recognise and know how to safely respond to and challenge gender and sexual stereotypes and unfair behaviour.  An awareness of how positive and negative social and cultural norms regarding sex, gender and sexuality influence relationships and behaviours.	An ability to advocate for and advance the rights of all and understand and respect all people in relation to sex, gender and sexuality.  Understanding how the law and human rights secure freedoms around sex, gender and sexuality and how these can differ in other countries and over time.  Ability to critically explore and understand how a range of social, cultural and religious norms and influences about relationships, sex, gender and sexuality can shape perceptions and our wellbeing and can be both positive and harmful.

Sexual Health and Well-being Mandatory Content			
	sider learners' developmer	ntal appropriateness for	
learning in each phase wi	ith learning that supports:		
Phase 1 from age 3	Phase 2 from age 7	Phase 3 from age 11	
The use of accurate terminology for all body parts. An awareness of the human life cycle and that reproduction is a part of life.	Knowledge and understanding of how reproductive organs develop in a human body. This includes understanding fertility and the processes of reproduction, including	Understanding how fertility, sexual function and menstrual health and well-being can change across the life course and how to find information and support when needed.	

	what supports menstrual health and well-being.  Recognising the process of pregnancy and birth.	The knowledge and understanding of how hormones continue to affect emotional and physical health throughout adulthood.  Understanding how contraception can assist with reproductive choices, including awareness of abortion.
Awareness of how human bodies change as they grow.	The knowledge and understanding of how people experience significant physical, emotional, social and cognitive changes during puberty.	Understanding of good sexual and reproductive health, including the range of risks and outcomes from sexual experiences and the knowledge needed to support informed decisions about sexual activity and about reproductive choices.
An awareness of the importance of personal self-care and hygiene.	The knowledge and skills needed to manage personal self-care and hygiene, including the importance of menstrual well-being.	The knowledge and understanding of the causes, symptoms and impact of conditions connected to sexual and reproductive health and to fertility, including sexually transmitted infections, HIV and reproductive cancers.  Understanding and skills needed to minimise risks and seek help.
A recognition that everyone's body is unique and special to them.	An awareness that there are many different sources of information offline and online that help us learn about our bodies and affect how we feel about our body and other people's bodies.	Critically engaging with positive and negative representations of a diversity of bodies, including through various forms of media and understanding that these can be unrealistic and harmful.
Awareness of the different feelings one can have, recognising other people's feelings and how	Awareness of how people can feel attracted to others as they mature and how this can lead to	Understanding how all are entitled to safe and pleasurable relationships and recognising the role consensual sexual activity

these may differ to your own.	emotional and physical responses.	plays within healthy relationships.
		Understanding the legal age of consent.
Recognising trusted adults who can help them and whom they can talk to and ask questions of, especially when they feel unhappy or unsafe.	Be able to identify trustworthy sources of information and able to raise issues and questions with trusted adults.	Recognise and be able to use a range of support services to access information and support around relationships, health and well-being and safety.

Empowerment, Safety and Respect Mandatory Content				
Practitioners should consider learners' developmental appropriateness for				
learning in each phase with learning that supports:				
Phase 1 from age 3	Phase 2 from age 7	Phase 3 from age 11		
Recognising harmful behaviour including behaviours which are discriminatory and the right to be free from discrimination.  Ability to interact with others in a way that is	Understanding of the importance of fair treatment for all and of respect in all interpersonal interactions offline and online.  Recognising the value of non-discriminatory	Understanding the importance of inclusivity, including for LGBTQ+ people, non-discrimination and the value of diversity in our interpersonal behaviours and relationships.		
fair.	behaviours and when and how to take safe action to respond to and challenge discriminatory behaviours.	Developing a sense of individual and social responsibility to others, including consideration of how we respond to behaviours that are discriminatory, disrespectful and harmful, offline and online.		
Recognising the right to be free from harmful, abusive and bullying behaviour.  An awareness of how to recognise positive and harmful behaviours, including bullying.  Ability to share with a trusted adult when faced with harmful behaviours.	Understanding of the right for everyone to be free from harm or abuse.  An awareness of different kinds of harmful or abusive behaviour including physical, sexual, and emotional abuse and neglect, including peer on peer harassment and bullying and the role technology can play.	Recognising harmful, abusive or coercive behaviour in personal relationships including control, violence and sexual violence and how to respond and seek help for self and others. This includes all forms of violence based on sex, gender and sexuality.		

		_
	How to seek support for oneself, and offer support to others.	
	How to be a good friend and advocate for others.	
(Phases 1 and 2 include pre-requisite knowledge and skills for understanding the learning on consent at phase 3)  Beginning to recognise that other people have thoughts, feelings and opinions that are different.  An awareness of the need to seek agreement in order to share, for example toys.  An awareness of everyone's right to privacy, personal boundaries and which parts of the body are private.  Ability to communicate if someone is touching them in a way that makes them feel uncomfortable.	Understanding of the right to bodily privacy, personal boundaries including online.  Understanding how behaviours may be perceived by others offline and online.  Recognising which steps to take to keep safe from harm both in offline and online friendships.  Understanding the social and emotional norms and pressures that lead to non-consensual behaviours, friendships and relationships, for example, gender norms.  Developing the skills to build consensual behaviours and relationships and know how to safely respond, challenge and report nonconsensual behaviours and relationships offline	Understanding of the importance of consent for safe and healthy relationships and in particular sexual relationships.  Understanding of how consent can be communicated in different social contexts and relationships, including online.  A critical understanding of how consent is impacted by perception and social context and the factors that influence and impair people's ability to engage in consensual behaviour, for example, substances, violence, coercion and relationship norms.
Awareness of how to keep safe when using digital media, including sharing with a trusted adult when they feel	and online.  Know how and when digital media can be shared safely, with permission and when it can be a source of harm.	Understand the ethical and legal issues relating to the consensual and non-consensual sharing of self-generated
uncomfortable or scared.	Awareness of the benefits and dangers of the internet and social media in forming friendships online.	imagery, and rights to safety, support well-being and protection.  Understanding the impacts associated with sexual material and intimacy online including
		intimacy online, including

	Exploring the motives behind fabricated and digitally-altered media.  An understanding of the need to keep safe online, an ability to take steps to protect themselves and an ability to share with trusted adults where something is seen that shouldn't have been, or is upsetting or uncomfortable.	the ethical and legal implications.  An awareness of how sexual material and media often represents gender, sexual activity, bodily appearance and relationships in unrealistic and harmful ways.
An awareness that everyone has the right to be safe and no one is allowed to harm anyone else.  Ability to speak up for each other.	Awareness of laws in place to protect from different forms of discrimination, violence, abuse, neglect and harassment.	An understanding of laws around RSE issues that are in place to protect us from all forms of discrimination, violence, abuse, neglect and harassment, and that laws are intended to protect not criminalise young people.  An understanding of how to advocate for safe environments and the rights and understanding of everyone on a range of RSE issues.
		Appreciate the importance of safely speaking out against sex and gender based and sexual violence.

## **Relationship and Sexuality Education**

## **Nursery and Reception**

This strand focuses on:

- the range of relationships that human beings have throughout their lives
- how identity can be shaped by our relationships and sexuality
- the importance of human rights in securing healthy, safe and fulfilling relationships in an inclusive society.
