Development of Safeguarding Health Checks

Reconstruct was commissioned by the Director for Children and Schools in February 2013 to develop a quality assurance framework for safeguarding children in schools in Pembrokeshire, following an inspection in 2011 which identified safeguarding concerns. Reconstruct developed a 'health check' tool with the local authority and a subsequent sustainable peer reviewer process to underpin this process for the future. The aim was to identify areas of good practice which could be applied across all schools in the area and to make any recommendations for action necessary to support and strengthen arrangements both within the local authority and schools.

The quality assurance framework highlights 5 areas which together make up a safe school and service:

- Culture, ethos and values
- Governance, leadership and management
- Policy, procedures and practice
- Pupil Voice

During 2013 all primary and secondary schools were visited by Reconstruct reviewers and action plans implemented. The aim of the visits was to provide external evaluation and to identify areas of good practice as well as areas for development and improvement. In May 2013 a Peer Reviewer programme was established and in September 2014 the safeguarding self audit tool was rolled out to all schools. A further cohort of peer reviewers (school based safeguarding leads and school improvement challenge advisors) were trained in 2015.

There is a plan to consider the future structure of Safeguarding Health Checks through the ERW collaboration.

Level 1 Intervention - Wellbeing and Safeguarding Self Evaluation Toolkit

Self Evaluations should be undertaken by schools yearly using the Wellbeing and Safeguarding self evaluation toolkit for schools. An action plan should be formulated and these priority actions should be included in the school development plan. Self Evaluations need to be submitted to the school challenge advisor in the autumn term and discussed as part of the autumn core visits and school development plan process. The self evaluation toolkit is attached as Appendix 1.

Self Evaluations can be submitted in Welsh. All documentation is available in the medium of Welsh if requested.

The school is accountable for the information supplied in the self evaluation but evidence should be available at the request of the Challenge Advisor if there are any queries about the information supplied. The voice of the pupil should always form part of the self evaluation. The school will be responsible for developing and promptly responding to the actions and priorities identified to address the school recommendations. The action plan will need to be measurable with timescales given for actions to be completed and a named

person within the school with responsibility for ensuring actions are undertaken. The actions for the school should be incorporated into the school development plan.

The self evaluations will be held within the school and also held centrally within the local authority by the Principal Challenge Adviser and the Safeguarding in Education manager. School Challenge Advisors will quality check content before the evaluation is shared with the relevant Chair of Governors. Any subsequent concerns about an evaluation should be discussed with the Safeguarding in Education manager and any other relevant manager, i.e. the Local Authority Designated Officer (LADO).

Schools will be given a safeguarding status according to the Matrix criteria in Appendix 3. Status can be amended at any time during an academic year, this can be graded up or down depending on the situation which has presented. This is to ensure that schools are always accurately represented in the matrix in terms of safeguarding.

Level 2 Intervention – Concerns/Specific Issues

If a concern about a self evaluation is identified, a follow up visit to the school will be undertaken by the Safeguarding in Education manager and a challenge advisor or manager to discuss follow up development work. This might include a partial health check review which may include issues such as:

- assistance with action planning,
- advice and support with processes or procedures,
- policy/guidance development
- training/peer mentoring

This Level 2 follow up visit will be fully discussed and planned with the school.

However, in some circumstances it may be felt that a full safeguarding health check may be required.

Level 3 - Full Safeguarding Health Checks

A full safeguarding health check visit may be undertaken if significant safeguarding concerns are identified through the self evaluation process or during a level 2 intervention and can be implemented at any time through an academic year. All new Heads will receive a full Safeguarding Health Check during their first year.

Two peer reviewers will undertake this full safeguarding health check in pairs and produce a written report, action plan and recommendations. The Safeguarding in Education manager will be one of these peer reviewers. Either peer reviewer can take the Lead at the visit and can produce the report jointly. The school will be responsible for developing an action plan to address the school recommendations and Challenge Advisors will then review that action plan as part of the normal school visits to ensure any actions and recommendations are completed by the school. The action plan will need to be measurable with timescales given for actions to be completed and a named person within the school with responsibility for

ensuring actions are undertaken. The action plan will also be included in the school development plan.

Schools will be given the option of a visit to be carried out in the medium of Welsh. All documentation is available in the medium of Welsh if requested.

The Peer Reviewers will be the authors of the full Health Check reports but the Director for Children and Schools will have overall responsibility for the report. The report is a reflection of evidence taken at a point in time, i.e. a snapshot of evidence seen on the day of the visit by the peer reviewers.

Full safeguarding health check reports will be submitted to the Principal Challenge Adviser and Safeguarding in Education manager to quality check content before the report is shared with the relevant Headteacher and Chair of Governors.

Full safeguarding health checks should be undertaken within the school day, to include breakfast club observation and pupil participation. The length of time taken is dependent on the size of the school. Small primary schools should be a morning only visit and secondary schools would probably require a full day. The full school visits will follow the Safeguarding Review Evidence collection template which outlines the format for the visit attached as Appendix 2. There is some pre-preparation in terms of reading inspection reports, viewing school website etc. Handwritten notes taken during visits will be kept until the full report is agreed and then be destroyed.

School safeguarding Performance Status

Schools will be given a safeguarding status according to the Matrix criteria in Appendix 3. Status can be amended at any time during an academic year to reflect changes in circumstances or events which highlight safeguarding issues or concerns. This is to ensure that schools are always accurately represented in the matrix in terms of safeguarding.

Peer Reviewers

Peer reviewers will have the relevant safeguarding health check training and will meet at least once a year to share learning practices, identify areas for improvement and address any training needs. All Peer Reviewers need to have a valid DBS check.

POLICIES & PRACTICE: Summary sheet - Documentation Review

The school has a child protection policy and procedures that are in accordance with local authority guidance and locally agreed inter-agency procedures. The policy includes how to deal with professional allegations	
The child protection policy is up to date and reviewed regularly. It includes the name of the designated responsible, designated governors and contact numbers for relevant agencies.	
The school records information relating to child protection concerns clearly and accurately sharing it appropriately both internally and with other agencies.	
The school has an appropriate behaviour policy including use of 'time out' and physical restraint. Restraint records are in place (as appropriate).	
The school has undertaken the 360° school assessment and has policies to cover a wide range of safeguarding issues including e-safety	
A single Central Register in relation to staff is in place which is deemed good practice by Estyn.	
Safe recruitment and DBS checks are carried out in line with Welsh Government Guidance	
There is a clear reporting system for safeguarding concerns and accurate records kept.	
Risk assessments are in place to improve safeguarding where appropriate e.g. off site activities, for individual students	
Child protection training for staff is in place and an up to date record kept.	
Attendance records/procedures demonstrate that pupil absence is followed up effectively

Example Safeguarding Health Check School Report

School:	Head Teacher:
School Type:	Designated CP Lead:
Date and Time of Visit:	Deputy CP Lead:
Visiting Consultant/s:	Designated Governor:

Summary: Thank you to the Head, governor, staff and pupils who welcomed the visit. The visit included formal discussions with various groups and in addition consultant was able to observe the school in a less structured way with a visit to the breakfast club, a tour of the school and being able to mingle with staff and pupils at break and lunchtime.

The following report represents a snapshot of evidence seen on the day of the visit.

Emerging strengths and best practice observed	Agreed areas for future development/support
<p>Culture, ethos and values:</p> <ul style="list-style-type: none"> A culture of celebration was noted and a caring ethos between pupils. There is every indication that the leadership is value driven The environment and classrooms are colourful and child friendly. <p>Governance leadership and management:</p> <ul style="list-style-type: none"> There is a designated officer and governor for child protection who take a lead role in ensuring good safeguarding practice. The Head Teacher gave example where she actively seeks support from the Local Authority and outside agencies. We were informed that Safeguarding is discussed termly at governors’ meetings. There is weekly communication between the Head Teacher and Chair of Governors and between the Head Teacher and staff. The Head Teacher has had higher level CP training. <p>Policies and practice:</p> <ul style="list-style-type: none"> There are a range of safeguarding policies and a number of strategies in place to seek the views of learners and parents. CP and LAC documentation is stored securely. Systems are in place to report and record incidents. 	<p>Areas for consideration by the Local Authority:</p> <ul style="list-style-type: none"> The lead governor suggested that specific training on dealing with professional allegations would be beneficial <p>Areas for consideration by the school/LA:</p> <ul style="list-style-type: none"> It would be helpful to request from LA a model Intimate Care Policy. Safer recruitment and HR practices are needed in line with LA model policies. An audit of HR files would be a good starting point. The site presents a number of challenges in terms of safeguarding and school would welcome support from LA in reviewing the risks and planning improvements. <p>Areas for consideration by the school:</p> <ul style="list-style-type: none"> To review the school’s anti-bullying policy and practice. Policies need to be dated and ratified by full governing body. Staff need to be more aware and confident to articulate policy and practice. The safeguarding/CP policy is a priority in this context. To evaluation the school’s process for identifying and recording low level concerns in a systematic way across the complex school site.

A safe workforce:

- The school is endeavouring to follow county guidelines with regard to safe staff recruitment.
- All staff are trained at Tier 1 level and relevant staff have Tier 2 training

Pupils' voice: x pupils from across the school were interviewed and the consultant spoke to x other pupils throughout the visit. The comments below summarise their views:

- Pupils say most children are happy at school
- They said that one of the best things about the school were the staff who they describe as good and friendly.
- Most pupils had someone they would talk to if they were worried in school
- Pupils' response to bullying was variable
- Pupils say they feel safe in school and on the way to and from school.

Issues raised by the pupils:

- The quality of supervision on the playground and in the classroom may need further attention.

Suggested introductory email

Dear **Headteacher's name**

Following the recent call you have received about Pembrokeshire County Council's schools safeguarding health checks, I am writing to introduce myself in readiness for the visit to your school on **DATE**. I will be joined by my colleague **NAME**

INSERT IF APPLICABLE On this occasion we will also be accompanied by **NAME** who is a consultant supporting Pembrokeshire in developing this initiative.

I attach a programme for the visit. The thought is that you would appreciate having time to look at these before we talk together, as then you will have a chance to shape the arrangements to suit your school. It is good to have a telephone discussion about how the visit will work, as it is really important that you are happy with the arrangements and that they fit around your school day.

I will give you a call on **DATE/TIME** or if you prefer, you can ring me on the number below. I look forward to talking with you and visiting your school.

Kind regards

Notes to support the initial phone call with the Headteacher

Firstly, reassure Head that the visit aims to be supportive and developmental to both the school and the LA. It is about looking forward to the future. The aim of the phone call is to respond to any questions the Head may have and to ensure that the following points are highlighted from the programme.

General points

- Ensure the timetable allows for the peer reviewers to talk to pupils and staff out of lesson time e.g. breakfast club, break or lunch. In general the activities can happen in any order to suit the school day.
- Reviewers would appreciate a tour of the school site.
- Please could the Head let staff know of impending visit and that reviewers may bump into them and have a chat.
- Need a room/space where reviewers can gather thoughts prior to feedback.

<p>Joint interview with lead staff for safeguarding</p> <ul style="list-style-type: none"> • This works well at the beginning of the visit, but can be adjusted to suit the timetable • It is very useful for the Safeguarding Governor to be available. If this proves difficult you may be able to shift around the timetable or speak to the governor on the telephone either during or after the visit. • Reviewers will ask about the Digital learning and 360° eSafety school assessment and PREVENT 	<p>Pupil focus group</p> <ul style="list-style-type: none"> • School to set up group/s. • It is appreciated if the selection is 'randomised' e.g. first half of alphabet, cross section of pupils, vulnerable pupils if appropriate, mixed age and gender. Best to avoid school council if possible. • Good to split into separate groups at the primary phase – for example KS2 and KS1 groups. • Staff attendance in groups not necessary • Venue/room in an open location/door e.g. library
<p>Joint conversation with mixed staff group (those with day to day responsibility for safeguarding)</p> <ul style="list-style-type: none"> • Group to comprise of teaching, TAs and lunch break staff if possible. 	<p>Documentation review</p> <ul style="list-style-type: none"> • It would help if the school have the range of documentation available relating to safeguarding. • Explain that you are looking at how CP records are kept and not at individual files • Useful also to have relevant staff available if you have questions e.g. Bursar, CP lead
<p>Reflection time</p> <p>Ask to build in time during the day so that you can have a reflect/review time with your peer review partner. You will also need time at the end of the day, prior to giving the verbal feedback.</p>	<p>Verbal feedback</p> <ul style="list-style-type: none"> • This will be given at the end of the day and will form the basis of the report.

Finally, if they are able to email the programme to you ahead of the visit, that would be helpful.
