

Work Experience Days at Glan-Y-Mor Farm 2019

We would like to invite you to join in with Green Links' **Set to Work** project supported by BBC Children in Need.

Green Links will be running three weeks, Monday to Thursday, of work experience activities for 14 to 18 year olds (you may attend if younger but please contact us first) during the summer holidays on the farm. Starting Monday 29th July. It will include farming, engineering, woodland and product making ready for the open day.

The work experience will be in two groups each day. The morning will be spent learning new skills and the afternoon doing fun activities. There will be food provided for lunch but everyone should bring appropriate clothing.

For those who attend at least 3 days each week we will have a camp Thursday night with breakfast and farming in the morning. The experience will finish with the Farm Open Day on the 17th August.

To avoid missing out it is advised to book a space.

To book or ask any questions please get in touch.
