“Curriculum Maestro” is our New Learning Project Curriculum. It encompasses the *foundation* subjects with the *personalisation* of the *curriculum*.

Burps, Bottoms and Bile Open wide – let's look inside! We're on a voyage of discovery to investigate the busy world inside your body.

This half term, we'll find out about different dental procedures and learn new scientific vocabulary. At school, we'll use this information to write toothy fact files. There will be lots of investigating as we learn about our different teeth, how to brush them and how sugary drinks affect them. We'll examine the amount of sugar in different foods and create images of ourselves with healthy and unhealthy teeth. We'll write a story describing the journey a piece of food takes through the digestive system. In science, we'll learn about the organs involved in digestion and make our own wearable digestive systems in D&T. We'll learn about digestion in different animals and handle a range of digestive organs.

Misty Mountain, Winding River

This project teaches children about the characteristics and features of rivers and mountain ranges around the world, including a detailed exploration of the ecosystems and processes that shape them and the land around them.

I hope you find this information useful.

If you have any queries, please contact me for more information.

I will also keep you up to date of any necessary changes, or important matters through HWB.

JamesC404@hwbcymru.net

These are unusual and unpredictable times for all of us, we are all doing our best and we will need to work closely together

Many thanks for your support.

Yours sincerely

Mrs C. Brett-James and Mrs D. Williams
